March 20, 2006

Mr. Bud Bilanich-

Thanks so much for making time to talk to the students at Adams City Middle School. Your time and energy were much appreciated. The program and handouts on personal branding was excellent. It's important for students to always think about what image they really want to be portraying. Nice job keeping the students actively engaged. Great message to help keep the students in Commerce City on the right track.

Thanks again for keeping in touch and making this work!
